Manure Application Field Characteristics Table

	A	B	C	D	E	F	G
Field ID	Legal description	Rural Municipality	O/C/L/A	Setbacks, including features	Net acreage for manure application	Agriculture capability class and subclass	Soil Phosphorus (ppm Olsen P) 0-6 inches
	NW-13-05-22-W	Grassland	O/L/A		80	2WP, 3T	7.5
	NE-13-05-22-W	Grassland	A		160	2W, 2WP, 3T	12
	SE-13-05-22-W	Grassland	A		160	2T, 3T	12
	SW-13-05-22-W	Grassland	A		160	3T	9.6
	NW-14-05-22-W	Grassland	A		160	2W, 3T, 3TE	20
	NW-19-05-21-W	Grassland	A	Residence Yard	153	2TE, 2WP	7
	SW-19-05-21-W	Grassland	A		156	2T, 2W, 2WP	8.4
	NE-25-05-22-W	Grassland	A		165	2W, 2X, 4R	17
	SW-25-05-22-W	Grassland	A		155	2WP, 2X, 3T, 3TE	9
	NE-30-05-21-W	Grassland	A	Drain Order 3 + 2	139	2W, 2T	4
	NW-30-05-21-W	Grassland	A	Drain order 2	148	2W, 2T, 2X	3.8

Total net acreage for manure application: 1636

A. Enter the legal description for each parcel of land that will receive manure: Sec, Twp, Rge or River Lot (including parish).

B. Identify the Rural Municipality in which the parcel is located.

C. Indicate how the land has been secured for manure application: O – Own / C – Crown / L – Lease / A – Agreement. Multiple designations may be used as appropriate (e.g., C/A for Crown lands that are under a spread agreement with the producer that holds the agricultural Crown land lease).

D. Enter setbacks from surface water or groundwater features that reduce the land available for manure application; include identification of type of feature (e.g., 8m, Order 3 drain).

E. Enter the net acreage available for manure application for the parcel after taking into account setbacks and excluding Class 6, 7 and unimproved organic soils.

F. Enter the agriculture capability class and sub-class ratings for the acreage available for manure application.

G. Provide soil test results for Phosphorus in ppm Olsen P for soil samples taken at the 0-6 inch depth. Soil test results must be no more than 36 months old and must be completed by an accredited soil-testing laboratory.
