

Food Safety and Animal Welfare Matter When Buying Meat

In Manitoba, it is illegal to harvest red meat for sale outside of provincially permitted abattoirs.

Meat obtained from provincially permitted abattoirs is government-inspected to ensure it is safe to eat and animals are handled and harvested humanely. Be sure to obtain your meat from a permitted abattoir or a retailer.

* Abattoirs involved in Eid-al-Adha harvesting of sheep, goats and beef.

Harvest of some species that are less commonly consumed e.g., geese, rabbits, bison, farmed game or other animals, may vary throughout the year. Check for availability by contacting abattoirs directly.
