The divisional text of this report is formatted along the same lines as the appropriation structure for the department that is used in the Estimates of Expenditure of the Province of Manitoba. This formatting will assist with cross-referencing the two documents. Exceptions to this format have been made for the Insurance and Risk Management branch, Net Tax Credit Payments and Public Debt. These areas have been included within the divisions responsible for their administration.

The department also encompasses the Vital Statistics Agency, Manitoba Securities Commission, The Property Registry and the Companies Office. These Special Operating Agencies prepare and present their own annual reports and are not included in this document.

fiducie, aux corporations de prêt, aux credit unions et aux caisses populaires; la délivrance de permis aux compagnies et aux particuliers qui vendent des valeurs mobilières, des biens immobiliers ou des contrats d'assurance, ou qui s'occupent de réunir des fonds. La Division maintient aussi des registres d'état civil et les registres des droits sur des biens réels et personnels.

La division du texte de ce rapport reflète la structure des crédits du ministère utilisée dans le Budget des dépenses du Manitoba. Ce formatage facilite la recherche croisée entre les deux documents. Seuls le paiement net des crédits d'impôt, la Direction de l'assurance et de la gestion des risques, et la dette publique sont formatés autrement. Ces secteurs ont été inclus à l'intérieur des divisions chargées de leur administration.

Le ministère englobe également le Bureau de l'état civil, la Commission des valeurs mobilières du Manitoba, l'Office d'enregistrement des titres et des instruments et l'Office des compagnies. Ces organismes de service spécial préparent et présentent leurs propres rapports annuels et ne sont pas compris dans le présent document.

## Insurance and Risk Management

*The Manitoba Comptrollership Framework* defines risk management as “a systematic approach to setting the best course of action under uncertainty by identifying, assessing, understanding, communicating and acting on risk issues”. The Insurance and Risk Management branch establishes central Risk Management Policy for the Government of Manitoba and provides Insurance and Risk Management services to its departments and agencies, including some Crown corporations.

The branch assists departments and agencies to identify and assess the risks with programs and initiatives, and promotes the taking of reasonable risks. The branch establishes and maintains commercial and self-insurance programs, and reviews contracts for fair and effective risk transfer. The branch administers insurance claims and advises on insurance-related legislation. During 2007/2008, branch management participated on a committee examining the benefits of the Enterprise Risk Management approach.

### Risk Identification and Evaluation

Branch personnel assisted numerous departments and agencies conduct risk assessments of new or proposed programs. Loss control personnel from Manitoba’s Insurance Consortium carried out site inspections during the 2007/2008 fiscal year, and reports were provided to facility managers.

### Risk Transfer

The Insurance and Risk Management branch reviewed contracts for insurance, bond and indemnity provisions, working with client departments and agencies and Civil Legal Services to promote appropriate transfer of risk in government contracts. The branch assisted departments and agencies in obtaining appropriate "Proof of Insurance" from third party contractors and vendors, and provided Certificates of Insurance and letters evidencing the government’s self-insured programs to third parties on behalf of government departments and agencies.

### Risk Financing

The Insurance and Risk Management branch administers insurance purchasing on behalf of government departments and agencies. The branch also conducts insurance surveys and examines alternative risk financing options on behalf of government departments and agencies.

Costs of government property and casualty insurance for 2007/2008 were lower than costs in 2006/2007, while insurance policy terms and conditions were stable in some areas, and much improved in others. General liability insurance protection for the government improved in 2007/2008. Despite increased values, aircraft insurance costs decreased by 28.8% and property insurance costs decreased by 10.6%. General liability costs decreased by 25.9% while general liability limits increased from \$52 million to \$100 million.

Commercial insurance premiums (including brokerage fees) paid during the 2007/2008 fiscal year were \$1.66 million for departments and \$2.47 million for agencies. This represented an overall decrease of 11% compared to the previous year.

## **Agencies Self-Insurance Fund**

During the 2007/2008 fiscal year, the Agency Self-Insurance Fund collected \$4.5 million in premiums from agencies, a decrease of 12% from the previous year. Claim payments from the fund were approximately \$3.4 million during the same period.

## **Claims Administration**

### **Agency Property Claims**

There were 225 incidents reported; a decrease of 19.4% over the previous year and a 25.7% decrease over the 3 year average. Total claim costs (reserves and payouts) for 2007/2008 were \$4,101,084, representing an increase of \$1,570,664 (62.1%) over the previous year and \$458,368 (12.6%) over the 3 year average.

There were nine large losses in 2007/2008, each in excess of \$100,000, compared to three large losses in 2006/2007, evidencing increased severity. Seven of the claims were caused by fire while two were weather related. Escalating labour, material, and transportation costs, particularly in rural areas, contributed to increased claims costs.

### **Agency Liability Claims**

The number of reported incidents decreased to 213, a 23.7% decrease from 2006/2007 and 12.6% less than the 3 year average. (In accordance with actuarial review recommendations, "potential claims" are now coded differently and are neither assigned liability claim numbers, nor are reserves posted. For the 2007/2008 year there were 164 potential incidents reported, resulting in a total of 377 potential/new liability incidents and a 35.13% increase in frequency compared to the previous year.)

Total claim reserves in 2007/2008 were \$157,452 a decrease of 54.2% from the previous year and 74.5% less than the 3 year average.

### **Agency Adjusting Costs**

Adjusting costs of \$138,531 for agency claims for the period 2007/2008 reflect an increase of 5.3% compared to 2006/2007. The increase was kept modest by utilizing in-house adjusting services at a reduced rate, closing fewer of the high severity claims experienced this period, and limiting adjuster involvement where practicable. The adjuster rate schedule remained unchanged.

### **Department Property Claims**

In the 2007/2008 fiscal year, 239 incidents involving damage to government department property, at an estimated cost of \$859,796 were reported. The number of reported incidents increased by 20.1% compared to the previous year and an increase of 4.67 % compared to the three-year average. However, the total cost of claims was down, with total property reserves lower by 16.85%. There were various sizes of property losses closed this year, most were under \$1,000.00. Several successful recoveries from responsible parties and various insurers combined to reduce overall financial impact. 78 property claims were closed in 2007/2008 (a decrease of 38% from 2006/2007) with total payouts of \$456,751, (down by 51% from 2006/2007) and external recoveries were \$224,474.

## Department Liability Claims

In 2007/2008, 368 new liability claims were reported with initial reserves and current payouts totalling \$231,892. This represents a 4.7% decrease in the number of reported claims and a 14.5% decrease of the total liability reserves over the previous year and 13.65% decrease over the three-year average. The slight decrease in claims is attributed to increased risk management awareness by government staff. The Insurance and Risk Management branch now records non-claim incidents separately from claims. A total of 65 non-claim incidents were recorded in 2007/2008.

146 liability claims were closed in 2007/2008, 41.8% less compared to the previous year, and included several with significant claim reserves. The contribution of \$193,768 from Insurers and other sources reduced the payouts by the departments to \$876,094 in total.

## Department Adjusting Costs

Adjusting costs charged to handle department claims decreased significantly by 58.77% from \$16,074 in 2006/2007 to \$6,628 in 2007/2008. This decrease resulted primarily from a reduction in claims frequency. The current year adjusting cost is 37.5% lower than the three-year average of \$10,597. Departments are increasingly assessing and investigating their own small claims with the direction from staff of the Insurance and Risk Management branch.

The Manager of Department Claims continued to work closely with all departments to increase awareness in risk management and the prompt reporting of incidents so they can be handled and investigated without delay. This is especially evident in the property claims being reported.

## Intentional Damage Compensation Plan

Branch personnel monitor the administration of the Foster Parents Intentional Damage Compensation Plan for the Department of Family Services and Housing.

A total of 144 claims were reported in 2007/2008 and settlement payouts incurred totalled \$122,350.50 (16% increase over 2006/2007) plus administrative costs of \$14,949.10 (decrease of 17.5% from previous year). The average claim was \$849.66 and the average fee was \$103.81. The 144 claims represent an increase of 17 % in claims frequency over the previous year, with a 1% decrease in average claim cost.

# TREASURY DIVISION

The Treasury Division manages and administers the cash resources, borrowing programs, and all investment and debt management activities of the government. It further manages the borrowing programs and investment activities for all of its Crown corporations and government agencies. The Treasury Division assists in the financing of municipalities, schools and hospitals and it is the division's responsibility to ensure that such financing is arranged.

Major changes are continually taking place in the world's economic and financial markets. These changes have a significant impact on both short and long-term management strategies, as well as the day-to-day decisions made by Treasury Division staff. This has become ever more evident since the financial market volatility experienced as of the summer of 2007.

The division maintains contact with a large number of domestic and foreign financial institutions as well as regulatory and rating agencies to inform them of the fiscal and economic performance of the province and its policies while at the same time obtaining information about the state of world financial markets and financial products and opportunities available to the province.

To more effectively deal with technological and financial market complexities and risks, the division operates the following committees:

## The Capital Markets Committee

- Meets weekly to review world capital markets, investment, risk management and foreign currency markets and ensures that Treasury management and professional staff are conversant with current events and expectations respecting these markets.
- Determines appropriate investment, borrowing and risk management strategies.

## The Risk Committee

- Responsible for the risk oversight function of the division ensuring that policies, processes, procedures and controls are properly documented and that they are consistently communicated to staff and understood by everyone responsible for their implementation and monitoring.

## The Information Technology Planning Committee

- Assesses the technological needs of the Treasury Division, and recommends appropriate actions to ensure that technological advances can be applied to improving Treasury Division effectiveness and productivity.

## The Executive Management Committee

## Administration

The Administration function has two staff positions for the performance of the following functions:

- general management of the Treasury Division;

The branch also co-ordinated presentations to the major North American rating agencies which evaluate the creditworthiness of the province.

## **Debt Management**

The Capital Markets branch actively monitors global capital markets and manages the province's outstanding debt through the use of hedging techniques such as currency exchange agreements, floating and fixed interest rate swaps and forward rate agreements.

At March 31, 2008, 10% of direct debt, excluding debt for which Manitoba Hydro is responsible, was floating rate (10% at March 31, 2007) and 100% was payable in Canadian dollars (100% at March 31, 2007).

Management of daily bank balances and timing of long-term borrowing is determined as a result of these cash flow forecasts.

During 2007/2008, the Money Management program was involved in managing the cash flow for over \$17 billion of transactions processed through the accounts of the government.

### **Short-Term Investment and Borrowing**

Monitoring and management of the government's cash flow during 2007/2008 resulted in the branch arranging over 1,547 short-term money market transactions aggregating approximately \$94.5 billion of investment purchases and \$259.5 million of investment sales. The branch also arranged for the issue of \$200 million of promissory notes to finance temporary shortfalls resulting from differences in the timing of government payments and receipts. Interest earned on the short-term investments amounted to approximately \$113.6 million while interest paid on the promissory notes issued was approximately \$0.837 million.

## Trust Administration

Over 120 departments, agencies and Crown corporations deposit surplus funds with the Minister of Finance in interest-bearing trust deposits. These trust funds averaged approximately \$1.2 billion in 2007/2008. The branch administered approximately 196 derivative contracts by which investments denominated in foreign currencies have been swapped into Canadian dollars.

Servicing short-term investments for the province required the processing and safekeeping of over 3,000 money market transactions covering purchases, sales and maturities with a total aggregate value of approximately \$190 billion.

In order to meet its responsibilities in servicing the province's debt and investments, the branch operates a payment system for the division. During 2007/2008, 206 cheques were issued with a total value of \$87.3 million and authorized 3,144 transfers totalling \$22.2 billion.

## Consumers' Bureau

### Functions of the Consumers' Bureau

- provides a medium for the mediation and investigation of consumer complaints;
- takes action as appropriate concerning prosecution of offenders under the statutes administered;
- identifies problems and issues in the marketplace and makes recommendations to amend legislation under its mandate as required;
- informs and educates consumers, businesses, service groups, consumer groups and student organizations regarding their rights and responsibilities as well as potential risks in the marketplace; and
- consults with other departments, agencies and organizations in Manitoba, Canada and internationally on current issues.

The Consumers' Bureau administers the following statutes:

- *The Business Practices Act*
- *The Consumer Protection Act*
- *The Personal Investigations Act*
- Bedding and Other Upholstered and Stuffed Articles Regulation of *The Public Health Act*
- *The Charities Endorsement Act*
- *The Hearing Aid Act*
- Part III Reverse Mortgage Loans of *The Mortgage Act*

Bureau functions fall into five main areas:

- Dispute resolution/investigation
- Licensing and registration
- Special investigations
- Information/education
- Administration/legislative review

Each program represents a group of activities with a common objective, however all staff are involved in all areas. As an example, all staff provide information/education to clients. Similarly, all staff offer input and effort resulting in recommendations to make changes to legislation.

## Dispute Resolution/Mediation

The dispute resolution/investigation program provides an important tool in monitoring the marketplace. Problems are often reported to the Consumers' Bureau in the form of complaints or inquiries. In response, the Bureau investigates and mediates complaints involving retail transactions of goods or services, financing contracts, collection practices, advertising, and credit reporting.

In 2007/2008, the Bureau handled over 30,000 telephone and e-mail inquiries from consumers and businesses requesting assistance. Disputes are often resolved over the phone or through e-mail by staff without requiring a formal written complaint. During the same period, 468 people come to the Bureau in person to request assistance or to initiate a formal complaint.

The number of complaints registered with the Bureau varies from year to year. In 2007/2008, 1,577 formal written complaints (inclusive of 178 complaint files carried over from 2006/2007) were handled, with home improvement complaints and automotive complaints registering the highest numbers.

The Consumers' Bureau obtained cash settlements or adjustments for consumers totalling \$607,207.00 in 2007/2008. The Bureau has a well established record of success in resolving disputes and strives to maintain a high standard through fair and accurate application of knowledge of contracts, relevant legislation and skill in dispute resolution.

Dispute resolution/investigation includes Bureau assistance to consumers and businesses with respect to making claims against the bonds of licensed vendors or collection agents. This may arise after a business failure or in situations where vendors or collection agents do not comply with the requirements of *The Consumer Protection Act*. During 2007/2008 the Bureau was successful in obtaining voluntary compliance to legislation by licensed businesses in all situations where complaints were received. As a result, no bond claims were made.

In anticipation of the pending proclamation of payday loan legislation, the Bureau began the development of the program to develop and deliver inspection, complaint investigation, and education services related to the payday loans. The Bureau hired two new Consumer Services Officers. The Officers will be trained to administer all legislation within the Bureau's mandate, but once the legislation is proclaimed, their focus will be on inspection, complaint investigation and education in the payday loan industry.

Consumer Services Officers handling complaints may identify breaches of consumer protection statutes such as unfair business practices in consumer transactions or misleading advertising. Officers often use mediation as a tool to bring a business into compliance with legislation. When compliance with statutes is not obtained, or where frequent statutory breaches have been identified, referral is made to the special investigation process of the bureau.

## Licensing and Registration

The Consumer Protection Act regulates vendors and direct sellers, collection agents and collectors through licensing and bonding requirements. Under the Act, consumers who enter into contracts as a result of a direct sale have a 10-day cancellation right. There are other cancellation rights of up to one year provided to consumers where vendors have not complied with certain requirements specified in the Act.

In addition to administering existing licensing programs, the Bureau developed a licensing framework in anticipation of the pending proclamation of payday loan legislation and the associated requirement to licence payday lenders.

## Special Investigations

One of the goals of the Consumers' Bureau is a level playing field in the marketplace for consumers and businesses. The Bureau is often successful in obtaining voluntary compliance with its statutes through mediation. There are instances where investigations of breaches of the various Acts are necessary. Following investigation, some matters are referred to the Justice Department for prosecution or other court action as appropriate. The Crown may also seek redress in court for consumers who have been victimized. As alternatives to prosecution, investigations may result in obtaining assurances of voluntary compliance, orders to freeze assets, or injunctions prohibiting certain actions.

In 2007/2008, one charge of committing an unfair business practice under *The Business Practices Act* was laid. The individual pled guilty and was fined \$2,000.00 and an order of restitution in the amount of \$2,608.00 was paid into court for distribution to certain complainants.

Six briefs were forwarded to the Department of Justice for consideration of laying of ten charges under *The Consumer Protection Act* for selling without the required licences, and nineteen charges of committing unfair business practices under *The Business Practices Act*.

Thirty-eight charges laid in 2003 were dealt with in 2007/2008, all of which involved licensing requirements. These included 19 charges against an individual under sub-section 75(2) of *The Consumer Protection Act*, 8 charges under sub-section 75(1) and 11 charges under sub-section 75(3) against a company. The company pled guilty to three of the charges and the remaining 35 charges against the company and individual were stayed. The company was fined \$10,000.00 plus \$3,500 costs and a \$1,500.00 victim surcharge. A total of \$20,000.00 has been paid out to consumers since the charges were laid, including \$7,000.00 in 2007/2008.

The Special Investigations unit maintains a close working relationship with departments and agencies of all three levels of government. As well, investigations benefit from the ongoing support and exchange of information with Industry Canada, the Winnipeg Police Service, Brandon Police Department, RCMP and Project Phone busters.

By effective investigations of breaches of statutes and prompt application to the court, the Bureau protects consumers from unfair business practices and ensures a healthier marketplace for businesses to compete fairly.

## Information/Education

Consumers' Bureau staff provided 21 presentations to more than 800 Manitobans in 2007/2008.

General information presentations were made to a number of English Second Language classes at Red River College and two classes at the Applied Linguistics Centre. General Information presentations were also made to groups at the Multi Cultural Family Centre, the Community Legal Education Association, and at the Steinbach 55+ Seniors Centre. Presentations on the role of the Consumers' Bureau and legislation administered by the Bureau were made to two School of Business classes and one consumer issues class at the University of Manitoba, to students at Garden City Collegiate, and to students at Sanford Collegiate. Presentations on identity theft were made to a Lions Club group and to a Y-Neighbours group. A staff member was the guest speaker at

the "Miles for Seniors" wellness day in Cyprus River. A presentation on licensing requirements was made to the Board of Directors of the Brandon Exhibition.

Two presentations were made to the Small Claims Court Hearing Officers on the cost of credit disclosure requirements, the sue or seize provisions, and the direct selling provisions under *The Consumer Protection Act*. The Hearing Officers were also provided with an overview of the pending payday loan legislation.

Three presentations were made on the requirements under *The Charities Endorsement Act* as part of the Canada Revenue Agency's "Roadshow" held to advise Manitoba charities of the requirements under the legislation that governs them.

The Bureau entered into a partnership that includes the RCMP, the Winnipeg Police Service, Manitoba Seniors and Healthy Aging Directorate, and the Addictions Foundation, to hold a "Police Academy – Older Adults Division" in conjunction with the Good Neighbours Senior Centre. The program was developed to educate older adults on safety and security issues, while increasing their knowledge about programs and services. The concept was adapted from a similar program held in Nova Scotia. It began on November 5, 2007 and concluded with a graduation ceremony on December 27, 2007. Approximately 35 participants were provided with presentations weekly on topics such as identity theft, frauds and scams, elder abuse, safety and health. They were given a binder with information on each topic and were encouraged to share the information with other older adults. A second program was held in St. Adolphe starting on February 6, 2008 for seven weeks. Approximately 35 older adults participated there. A smaller two-day version of the Academy was held in Springfield. One session was held in the Fall of 2007 and one in the Spring of 2008. Approximately 50 older adults participated in those sessions. The Consumers' Bureau gave presentations and provided information on frauds and scams, and identity theft at all three of the Academies.

Booths were set up at information fairs in Winnipeg, Ste. Anne, Ste-Agathe, La Broquerie, St. Pierre Jolys, St. Malo, and Carman, and a booth was set up at the Northern Association of Community Councils, Inc. general meeting and trade show. Participants were provided with information on their rights and responsibilities under the legislation administered by the Bureau, and on how to protect themselves from scams and identity theft. In addition, a booth was set up at a conference called "There's no place like Home....to do business" where information was given to participants on the licensing requirements under *The Consumer Protection Act*. A total of approximately 1500 individuals attended these events.

The Consumers' Bureau, in partnership with, the Manitoba Seniors and Healthy Aging Secretariat, the RCMP, the Winnipeg Police Service, Manitoba Public Insurance, the Residential Tenancies Branch, The Manitoba Securities Commission, the Manitoba Gaming Control Commission, the Competition Bureau, the Canada Revenue Agency, the Addictions Foundation of Manitoba, and the SafetyAid program, completed a consumer tips calendar for distribution to consumers. It features a different consumer topic each month and provides tips and information on a variety of subjects including identity theft, donating to charity, investing and the Internet, tips for spotting diabetes scams, fraud prevention, chances of winning using VLT or slot machines, the SafetyAid crime prevention program, information for landlords and tenants, the cost of gambling, what to do after a motor vehicle collision, seniors rights, residential home security and the cost of gambling. 30,000 copies of the calendar were distributed to various seniors' organizations and consumer groups as well as individual consumers.

The Bureau entered into a partnership with the RCMP, the Manitoba Securities Commission, the Consumers' Association of Manitoba, and Age and Opportunity, to produce a DVD and facilitator's guide called "Fact or Fraud: the truth about scams and fraud in Manitoba" for distribution throughout Manitoba. The final product will be ready for distribution in 2008/2009.

The Consumers' Bureau regularly receives calls from the media about specific consumer problems or marketplace issues. In 2007/2008 there was a total of ten media contacts on the topics of pet cemeteries and crematoriums, buying vehicles on the Internet, hiring home renovation contractors, the pending payday loan legislation, prepaid purchase cards (gift cards and gift certificates) requirements, and the role of the Consumers' Bureau. Bureau staff participated in television, radio and print interviews in response to media inquiries and utilizes these opportunities to communicate information to consumers and businesses about their rights and responsibilities under its consumer protection legislation.

News releases continued to be used as a proactive measure. The releases contained timely information about certain problems being encountered and current issues in the marketplace. They informed consumers and businesses of their rights and responsibilities and offered information on steps to take to prevent problems.

A total of five news releases were issued in 2007/2008. One release provided tips on hiring home renovation contractors. There were also releases announcing, the prepaid purchase cards (gift cards and gift certificates) legislation, the limits on fees that can be charged for cashing government cheques, the portions of the payday lending legislation that came into effect giving the Public Utilities Board the authority to hold hearings on the rates that can be charged by payday lenders, and the release of the 2008 consumer tips calendar.

The Bureau developed public education materials on the prepaid purchase cards (gift cards and gift certificates) legislation, the government cheque cashing fee requirements, and the advertising requirements under the cost of credit disclosure legislation.

## **Administration/Legislative Review**

The administration/legislative review program effectively manages the internal operation of the Consumers' Bureau, including the management of financial and human resources within the branch. All staff participate in the business planning, policy reviews and legislative reviews of the Acts administered.

*The Consumer Protection Amendment Act (Prepaid Purchase Cards)* received Royal Assent on December 7, 2006. A public consultation took place on the requirements to be included in a Regulation for prepaid purchase cards. The Prepaid Purchase Cards Regulation was registered on July 31, 2007. The requirements under the Regulation came into effect on November 1, 2007. The Regulation contains provisions addressing expiry dates, fees, and disclosure of terms and conditions on gift cards and gift certificates. The Regulation requires a mandatory review of all requirements by April 30, 2009. The Bureau notified stakeholders of that requirement and requested their on-going input

*The Consumer Protection Amendment Act (Government Cheque Cashing Fees)* received Royal Assent on June 13, 2006. The Public Utilities Board issued an order establishing the maximum fees that can be charged for cashing a government cheque. The requirements under the Government Cheque Cashing Fees Regulation came into effect on October 1, 2007. The legislation limits the amount that businesses can charge consumers for cashing government cheques..

*The Consumer Protection Amendment Act (Payday Loans)* received Royal Assent on December 7, 2006. The Payday Loans Regulation was registered on July 31, 2007. The legislation provides a regulatory framework under which payday loan companies are required to operate. The Public Utilities Board held hearings on the maximum amounts that may be charged for payday loans in Manitoba.

The Call Centres Telemarketing Sales Regulation under *The Consumer Protection Act* was developed and registered in 2007/2008. Additionally, amendments were made to the Consumer Protection Regulation. These new and amended provisions modernize certain licensing requirements for call centres who sell goods and services on behalf of other vendors. The regulations also set out cancellation rights for consumers who purchase goods or services through these call centres.

Senior Consumers' Bureau staff participated in the federal, provincial and territorial Consumer Measures Committee (CMC). The CMC provides a forum for national co-operation to improve the marketplace for Canadian consumers by harmonization of laws, regulations and practices and through actions to raise public awareness.

## Information/Education

### Telephone Calls/Interviews

The branch has an Interactive Voice Response (IVR) System. The service is available for callers to the Winnipeg general information line as well as to people calling on the toll-free number. Callers have the option of:

- speaking to a Client Service Officer;
- listening to recorded information segments about rent increases, security deposits, landlord and tenant responsibilities and repairs;

The IVR system handled 60,707 phone calls in the 2007/2008 fiscal year; approximately 42,575 of the callers chose to speak to a Client Service Officer. Staff in Brandon and Thompson answered an additional 6,874 calls from clients. These figures do not include calls to the branch about specific cases. During the fiscal year, approximately 5,024 people came to Branch offices to request information or to file a formal complaint.

## **Website**

The Residential Tenancies Branch's website [www.manitoba.ca/rtb](http://www.manitoba.ca/rtb) provides answers to several frequently asked questions. The information is available in English and French. Landlords and tenants can download the most commonly used residential tenancy forms. In late 2007, the branch introduced a new feature that allows landlords to complete Notice of Rent Increase and Notice to New Tenant forms online and submit them to the branch electronically. The electronic method saves mailing costs, speeds delivery times and helps the branch process forms faster. The website also has an automated security deposit interest calculation feature. The website includes the branch's Policies and Procedures Guidebook and links to *The Residential Tenancies Act* and *The Life Leases Act*. The website had 139,775 visits (logons) from April 1, 2007 to March 31, 2008.

## **Rent Status**

Anyone who is considering the purchase of a rental property can apply to the Residential Tenancies Branch for a rent status report. A rent status report provides information on a property's rent history and can alert people to potential rent increase problems. The application and authorization forms can be downloaded from the website.

In 2007/2008, the branch received 111 and closed 101 applications for rent status reports. These applications involved 159 buildings with 3,129 rental units.

## **Orders System**

The Residential Tenancies' Orders System is also available online. The Orders System provides information on the orders the branch issues, except for rent regulation orders. Clients can access the system by:

- paying an annual subscription fee of \$250 and receiving a password; or
- paying a fee to search online at the branch; there is a \$5 charge for each 30 minute search.

Users can search the system by landlord or tenant name or by the address of a residential complex. Searches can also be done based on the type of order (e.g. security deposit, repair) or by topic (e.g. carpet cleaning, advertising costs).

## **Policies and Procedures Guidebook**

The branch has a Policies and Procedures Guidebook, available in both English and French, to assist landlords, tenants and staff. The guidebook provides guidance on those areas not specifically dealt with in *The Residential Tenancies Act*. It also sets out the procedures for how the branch handles most of the issues landlords and tenants refer to the branch. The guidebook has 13 sections on topics like: security deposits, rent regulation, mediation, hearings and repairs. The branch offered copies of the guidebook to various landlord and tenant organizations and to all major libraries in the province as well as to universities and colleges. The guidebook is available on the branch's website.

Note: The figures shown here may differ from those in the annual report on the administration of *The Residential Tenancies Act*. This difference results from using figures based on the calendar year versus the fiscal year.

### Performance Standards

The branch has performance standards for the time required to complete a case. The following paragraphs provide details of the branch's performance for four case types.

The branch holds hearings to consider claims for compensation and applications for orders of possession. The target for issuing decisions on orders of possession is within three working days of the hearing date. During the 2007/2008 fiscal year, the branch was able to meet its target in most cases.

The performance target for issuing compensation claim decisions is within ten working days of the hearing date. During the 2007/2008 fiscal year, the branch's average time for issuing decisions on claims was approximately 14 working days.

When a landlord makes a claim for the security deposit plus interest or less, the branch tries to help the tenant and landlord come to an agreement. If they can't agree, they can ask the branch to make a decision on the claim. The branch usually makes a decision on this type of claim by reviewing written information and other submissions. The performance target for issuing these orders is three months from the date the case is opened. Currently the average time to complete the entire process is three months.

During 2007/2008, the branch redesigned its business processes for handling rent regulation cases. As part of this redesign, a new case management system was implemented. The design and testing of the new system resulted in delays in the processing of rent increase cases. In recognition of this, the branch temporarily reset the standards for completing work on applications for rent increase above the guideline. The interim target was to issue a decision within six months of the date the branch received the application. During the reporting period, approximately one-half of the cases were closed within six months.

### Safety Net Program

The Safety Net Program's main purpose is to help people with special needs that are being evicted. These include clients with mental or physical disabilities, the elderly and infirm, single parents or families with children. The safety net program may also be used when the Department of Health placards a building or there is some other unsafe living condition.

When the branch issues an order of possession, a safety net officer reviews the case. If the officer believes the tenant has special needs, the officer contacts the tenant to make sure they understand the order of possession and they know where to go to for assistance. In some cases, the officer might contact an appropriate social services agency. For example, if the tenant is a single parent on social assistance, the safety net officer might contact the tenant's worker to let them know what's happening and to make sure the tenant will receive moving expenses and temporary accommodation, if necessary.

The safety net officer has contacts with mental health workers, Employment and Income Assistance, the City of Winnipeg and the Department of Health, the City of Winnipeg Police Department's Community Relations and Community Credit Counselling Services.

## **Claimant Adviser Office – Automobile Injury Compensation Appeals**

The Claimant Adviser Office (CAO), established under the *Manitoba Public Insurance Corporation Act* (the Act) in 2004, officially opened for business on May 16, 2005. CAO assists persons who wish to appeal a decision made by the Manitoba Public Insurance Corporation (the Corporation) in relation to bodily injury claims to the Automobile Injury Compensation Appeal Commission (the Commission). The CAO is independent from the Manitoba Public Insurance Corporation (MPIC) and the Commission.

The Claimant Adviser Office is fully accessible to persons with disabilities and offers its services in both official languages. A public access computer workstation is available at the office for the use of claimants who are working with the CAO.

### **The Appeal Process**

A claimant who disagrees with an MPIC case manager's decision in respect of a bodily injury claim may have that decision reviewed by MPIC's Internal Review Office. A decision of an internal review officer may be appealed to the Automobile Injury Compensation Appeal Commission.

A claimant who is appealing a decision of an internal review officer is entitled to seek the assistance of the Claimant Adviser Office. A claimant who has completed an intake form and authorized the CAO to act for them is assigned a claimant adviser to assist them with their appeal. Under the Act, the CAO may:

- advise a claimant about the meaning and effect of the provisions of the Act, the regulations and decisions made under this Act;
- carry out investigations or inspections in relation to a claim;

- obtain an expert opinion respecting a claim; and
- communicate with or appear before the Commission on behalf of an appellant.

Once a claimant has filed a Notice of Appeal with the Commission, the Commission creates an indexed file which forms the core evidence used for the appeal. Upon receipt of the indexed file, a claimant adviser will review the file and assist the claimant with the pursuit of their appeal. This may include obtaining further evidence for addition to the indexed file. Claimant advisers appear for the claimant at the appeal hearing. In some cases, the claimant adviser may ask MPIC to reconsider its decision in light of new evidence obtained through the investigative process. In other cases, if the evidence does not support the issue at appeal, the claimant adviser will meet with the claimant to discuss the file analysis and their options, which may include considering the withdrawal of the appeal. Claimant advisers have also entered into settlement discussions with MPIC when authorized to do so by a client.

### Activity Summary

In 2007/2008, 148 new intake files were opened and 229 files were investigated.

\* 54 of the "No Appealable Issue" files were longstanding pending files that represented a category of clients who had initially contacted the CAO for services but failed to provide the necessary documentation and authorization forms. In 2007/2008 a concentrated effort was made to contact these clients and determine if they required assistance.

\*\* Two of the five "New Decisions" were part of multi-issue appeal files. In both of those files the CAO was able to obtain new decisions on two individual issues, and obtain successful appeal decisions from AICAC on the remaining decisions from AICAC.

## Performance Targets

A number of variables affect setting and achieving performance targets for the Claimant Adviser Office. There is a great variety in the size and complexity of the files. The majority of files contain multiple issues being appealed.

Investigation of appeal files can also be complex. In the typical case it is necessary for the CAO to obtain reports from the claimant's caregivers. In some cases it is optimal to obtain a specialist's opinion to support the appellant's case. This may require the claimant to wait for an appointment to attend a busy specialist. The time spent to obtain a consultation with very busy specialists can be considerable and cannot be controlled by the CAO.

Within these acknowledged constraints, the Claimant Adviser Office established the following performance targets.

- Files shall be assigned to a claimant adviser within three weeks of first contact by an appellant with the office.
- The claimant adviser assigned to a file shall contact a claimant within one week to explain the appeal process and provide tentative time lines.
- The claimant adviser assigned to a file shall, within six weeks of receiving the indexed file from the Commission, review the indexed file and develop an action plan for the claim.
- The claimant adviser assigned to a file shall seek an appeal date within six months of receipt of the indexed file.

Sixty-two percent of client files were assigned to claimant advisers within three weeks of contact with the office. Files that were not assigned within three weeks belong primarily to clients who had asked for intake and authorization forms to be mailed and had not returned the information within the three week period.

Eighty-four percent of claimants were contacted by the claimant adviser within one week of the file being assigned.

Seven percent of the indexed files received in 2007/2008 were reviewed within the six week performance target. Claimant advisers were working on a backlog of files in addition to new files opened in 2007/2008 which created challenges in achieving the performance target. Additionally there was an increase in the number of indexed files received at the CAO. In 2007/2008 165 indexed files were received in comparison to 142 in 2006/2007. The CAO will continue to monitor the time required to review indexed files and anticipates an improvement in the next fiscal year.

The final performance measure requires claimant advisers to seek an appeal date within six months of receipt of the indexed file. In 2007/2008 claimant advisers requested appeal dates for 3% of files in this category. The CAO continues to work through a backlog of files created since the office opened in 2005. The appeal file backlog has hampered our ability to achieve this performance target. The CAO will continue to monitor this measure and anticipates an improvement in the next fiscal year. Additional staff have been approved and hired to assist with the demand for services and backlog of appeal files.

The CAO was able to obtain five new decisions from the Corporation and negotiated three appeal settlements agreements in 2007/2008. This effort has resulted in client satisfaction with the appeal process and the services provided by the Claimant Adviser Office. It has also removed appeal issue(s) from the appeal process, thereby reducing the workload for both the Commission and the MPIC Legal Department. The CAO anticipates resolving increased numbers of issues to the satisfaction of clients with an effective mediation process. This in turn will reduce the number of appeal files at the Commission and the appeal workload experienced by the Corporation.

The CAO represented a client with an appeal in the French language in 2007/2008. This was the first request for a hearing in the French language since the office opened in 2005. The Commission rendered a favourable decision to the appellant concerning the issue of causation.

Eighty-eight files were closed at the pre-hearing stage in 2007/2008 because appellants had withdrawn their appeal after an analysis of the file showed that there was no evidence to support the appeal. A claimant adviser met with each client, after a thorough and rigorous review and assessment of file evidence, case law and applicable legislation and regulations. They discussed the merits of the appeal, the perspective of the client, the provisions of the MPIC Act and Regulations and relevant case law. These discussions have led to closure for some clients, a better understanding of the MPI decisions and the provisions of the Act and Regulations, and satisfaction with the opinion provided by the claimant adviser. A withdrawal of an appeal results in a reduction in the workload for both the Commission and the MPIC Legal Department as neither has to prepare for, present, hear or decide the appeal.

The CAO receives calls from individuals which, for a variety of reasons, do not result in opening a file. Many of the calls are from MPIC claimants requesting assistance at the case management and internal review office level. These types of requests for service are outside of the mandate of the CAO. As the public becomes more familiar with the existence of the CAO, it is likely that such requests will increase. The CAO will monitor these calls and consider the most effective ways of informing the public of the services provided by the CAO.

## Automobile Injury Compensation Appeal Commission

### General

The Automobile Injury Compensation Appeal Commission ('the Commission'), now in its fourteenth full year of operation, is a specialist tribunal established under *The Manitoba Public Insurance Corporation Act* ("the Act") to deal with appeals of internal review decisions concerning benefits under the Personal Injury Protection Plan (PIPP) of Manitoba Public Insurance Corporation ('MPIC'), a "no-fault" insurance program.

The Commission has nine full-time staff comprised of a chief commissioner, two deputy chief commissioners, a director of appeals, two appeals officers, a secretary to the chief commissioner and two administrative assistants. In addition, there are twenty-one part-time commissioners who sit on appeal panels on an as-required basis.

In 2007/2008, 171 individuals filed appeals respecting 187 MPIC internal review decisions. This compares with 209 appeals filed respecting 211 MPIC decisions in the 2006/2007 fiscal year. Most of the appeals heard during the 2007/2008 fiscal year relate to injuries sustained in prior years, some as early as 1994. As each year passes, many of the files increase in terms of the volume of documents and time required by the Commission to review the files. This is due in part to the fact that when injuries are relatively serious and the insurer's initial liability is not disputed, a claimant may be in receipt of income replacement, medical treatment or other coverage from MPIC for an extended period; in such cases it is only when the insurer decides to terminate benefits that the appeal process is initiated.

### The Appeal Process

Rights of appeal are explained to claimants by MPIC in writing at each step of the claims process.

Decisions on claims are made initially by MPIC case managers. A claimant who is not satisfied with the decision of a case manager has 60 days to appeal the decision to an MPIC internal review officer who will decide the appeal and issue a written decision with reasons for the decision.

If a claimant is not satisfied with the MPIC internal review decision a further appeal may be made to the Commission by filing a Notice of Appeal. An appeal to the Commission must be filed within 90 days of the date a claimant receives the internal review decision. An extension for filing an appeal may be granted by the Commission if the claimant provides a reasonable explanation for missing the 90 day filing deadline.

After receiving a Notice of Appeal the Commission obtains the appellant's complete file from MPIC. The file is reviewed and an "indexed file" of all relevant documents is created. The indexed file is provided to the appellant or the appellant's representative and to MPIC and, once both parties have had an opportunity to review the indexed file and submit any further documents they feel are relevant to the appeal, a date is set for the hearing of the appeal.

Prior to 2005/2006, appeal hearings were conducted by panels of three commissioners, however, the Act was amended in 2005 to allow appeals to be heard by either a single commissioner or a panel of three commissioners in order to provide greater flexibility and allow the Commission to deal more efficiently and expeditiously with some appeals.

In 2007/2008 the Commission held 109 hearings and 57 pre-hearing meetings as compared to 90 hearings and 47 pre-hearings in 2006/2007. A significant factor in the increase of pre-hearings in the last two fiscal years was that some appeals required further case management by a commissioner for various reasons such as to determine the status of the appeal, or whether there is any reason why the Commission should not schedule a hearing date. The result of pre-hearings significantly reduced the number of appeal hearings that were to be determined on the merits. Appellants were successful in whole or in part in 27% of the appeals heard by the Commission during 2007/2008.

The Commission hearings are informal in that the Commission is not strictly bound by the rules of evidence followed by the courts. In a majority of cases appellants do not have legal representation, although the availability of the Claimant Adviser Office means that more appellants now have the advantage of being represented at appeal hearings. Where feasible, the Commission will travel outside of Winnipeg to conduct a hearing or, if it is appropriate and of benefit to an appellant who lives or works elsewhere, a hearing may be conducted by teleconference.

Appellants and MPIC may call witnesses to testify and may also bring forward new evidence at appeal hearings. The Commission does have hearing guidelines which call for an appellant or MPIC to provide the Commission and the other party with disclosure and advance notice of any witnesses to be called or additional documented evidence to be presented at a hearing.

The commissioner(s) hearing an appeal weigh the evidence and the submissions of both the appellant and MPIC and, at the conclusion of a hearing, may issue a decision immediately or reserve their decision in order to consider the matter further before rendering a decision. Under the Act the Commission is given certain defined powers with respect to an appeal, and following an appeal hearing the Commission may:

- (a) confirm, vary or rescind MPI's review decision; or
- (b) make any decision that MPI could have made.

The Commission issues written decisions and provides written reasons for the decisions. The decisions and reasons are sent to the appellants and to MPIC. A delay in issuing decisions may occur when the commissioners find it necessary to seek further independent expert evidence, in which case that evidence is promptly shared with both parties and they are given an opportunity to respond before the Commission's decision is finalized.

All of the Commission's decisions and reasons are available for viewing at the Commission's office and on its web site. The decisions are also available through QuickLaw, a commercial online information provider that maintains an electronic database of decisions rendered by courts and tribunals across the country.

A decision of the Commission is binding, subject only to a right of appeal to the Manitoba Court of Appeal on a point of law or a question of jurisdiction, and then only with leave of the court. There were six applications for leave to appeal in the 2007/2008 year. The Court of Appeal denied leave in four cases, adjourned sine die one case and has yet to hear one application. On five other applications for leave which were filed in previous fiscal years and where leave to appeal was granted, one is still reserved by the Court, two were allowed, one was dismissed and one was withdrawn. In the Commission's fourteen years of operation, the Court of Appeal has granted leave to appeal in a total of ten cases.

## Performance Targets

The Commission strives to hear and decide appeals fairly, accurately and with reasonable expedition. With this in mind, the Commission has established the following performance targets:

- Preparation of the indexed file of material to be used at the hearing within five weeks after receipt of MPIC's file and all other additional material.
- Hearings are scheduled within 6 – 8 weeks from the time the parties notify the Commission of their readiness to proceed.
- Written decisions are rendered within 6 weeks following the hearing and receipt of all required information.

The Commission continues to experience a consistent volume of appeals filed resulting in the following average turnaround times for 2007/2008:

- Files are indexed within 27 weeks compared to 40-49 weeks in 2006/2007.
- Hearings are scheduled within 9.5 weeks from the time the parties are ready to proceed to a hearing and the actual hearing date.
- The average turnaround time from the date a hearing concluded to the date the Commission issues an appeal decision was 7.5 weeks in 2007/2008.

The Commission recognizes the preparation of the indexed file still does not meet its performance targets. This is due to a staff turnover over the last two years which has impacted the number of files the Commission was able to process. As well, with the influx of time, the number of issues has increased in respect of each individual appeal. The Commission addressed the backlog by hiring additional temporary staff to assist with the backlog of indexing. This has resulted in a reduction of the number of files waiting indexing.

While the Commission is experiencing a backlog of files requiring indexing, additional performance targets for 2007/2008 included:

- Prepare 66 indexed files quarterly and complete indexes on older files as a priority.

This has resulted in the Commission completing a total of 252 indexes for 2007/2008 which is 95% within the new objectives.

## Residential Tenancies Commission

The Residential Tenancies Commission is a quasi-judicial, specialist tribunal that hears appeals from decisions and orders of the Director under *The Residential Tenancies Act*.

### The Residential Tenancies Commission consists of:

- The Chief Commissioner - a full-time position; appointed for up to a five-year term, located in Winnipeg.
- Deputy Commissioners – one full-time position and twenty part-time positions; may exercise the powers and perform the duties of the Chief Commissioner; appointed for a two-year term; from Winnipeg, Brandon and Thompson.
- Panel members - forty-six panel members – approximately half representing the views of the landlords, the others the views of the tenants; from Winnipeg, The Pas, Thompson and Brandon.

Hearings are before a panel of three consisting of one landlord representative, one tenant representative and a neutral commissioner which is either the Chief Commissioner or one of the deputies. Hearings are chaired by the neutral commissioner. The neutral commissioner also casts the deciding vote if there is a tie. Hearings outside of Winnipeg are held at the nearest judicial district.

The Residential Tenancies Commission decisions can be appealed to the Court of Appeal, but only on a question of law or jurisdiction. A Court of Appeal judge must grant leave or permission to appeal. Section 179 of *The Residential Tenancies Act* dealing with rent regulation states that “No appeal lies from a decision or order of the commission made in a matter arising under Part 9.” The Residential Tenancies Commission’s decision here is final.

### Expenditure Variance Explanations

for expenditures for the fiscal year ended March 31, 2008 as compared to figures for the previous fiscal year

---

Explanation Number:

1. Increase is due to the in-year increase in the compensation to which an individual appointed to the Executive Council is entitled.
2. Increase is due to the costs associated with the retirement of the Deputy Minister.
3. Increase is due to the costs associated with the establishment of the Senior Assistant Deputy Minister's office.
4. Increase is essentially due to professional services costs.
5. Decrease in recoveries is due to the completion of the Integrated Taxation System (GenTax).
6. Increase is due to the full-year costs associated with the establishment of the Independent Administrator.
7. Decrease is essentially due to the consulting contract costs incurred in 2006/2007.
8. Decrease is essentially due to office renovations undertaken in 2006/2007.
9. Increase is due to an increase in the provision for doubtful accounts for taxation receivables.
10. Increase is due to reduced position vacancies.
11. Decrease is essentially due to the reduction in general liability premiums and lower aircraft hull and liability premiums.
12. Decrease is due to position vacancies.
13. Decrease is due to reduction in recoveries related to support services no longer provided.
14. Increase is due to the costs associated with the Pay Day Loans hearings conducted by the Public Utilities Board.
15. Increase reflects the additional activity to address increased workload.
16. Net decrease is essentially due to increase in average income of potential claimants resulting in a reduction of total benefits under formula as it applies to the Personal Tax Credit and prior year adjustments. An increase in the Education Property Tax Credit and corresponding recovery from Education, Citizenship and Youth is due to the increase in the credit to homeowners and renters from \$400 to \$525.
17. Decrease is primarily due to increased investment earnings and capital recoveries offset by borrowing and other costs.

# PERFORMANCE REPORTING

The following section provides information on key performance measures for the department for the 2007/2008 reporting year. This is the third year in which all Government of Manitoba departments have included a Performance Measurement section, in a standardized format, in their Annual Reports.

Performance indicators in departmental Annual Reports are intended to complement financial results and provide Manitobans with meaningful and useful information about government activities, and their impact on the province and its citizens.

For more information on performance reporting and the Manitoba government, visit [www.manitoba.ca/performance](http://www.manitoba.ca/performance).

Your comments on performance measures are valuable to us. You can send comments or questions to [mbperformance@gov.mb.ca](mailto:mbperformance@gov.mb.ca).

Collection rate of statutory taxation revenues (excluding personal and corporate income taxes) owing to the province by comparing revenue amounts collected to amounts owing.	The effectiveness of these activities is directly related to the protection of provincial revenues in the face of technological change in the marketplace and increasingly aggressive tax planning by business and tax professionals.	99.8% of amounts owing to the province were collected in 2005/2006.	99.8% of amounts owing to the province were collected in 2007/2008.	The department strives to continually enhance collection enforcement legislation and processes which should result in the write off percentage remaining relatively consistent at this level over time.	
The effective management of public debt by measuring the net cost of servicing the general government program borrowings as a percentage of provincial revenue.	To provide a measure of the efficiency of public debt management program as well as an indicator whether the province has more to spend on operations as opposed to debt servicing costs.	The province's net cost of servicing the general government program borrowings as a percent of provincial revenue as at March 31, 2004 is 4.2%.	The province's net cost of servicing the general government program borrowings as a percent of provincial revenue as at March 31, 2008 is 2.8%.	Decreasing. Manitoba continues to effectively manage and realize its long-term goals to reduce its debt and debt servicing costs to provincial revenue ratio.	Active monitoring of global financial markets and prudent financial risk management strategies are pursued on an ongoing basis to manage volatility and costs.

The province's ability to borrow at a cost-effective rate by examining the credit rating for the province.	This measure is a key independent, third-party assessment of the province's credit-worthiness and is an important consideration for investors in Manitoba government bonds and other securities.	Ratings as at March 31, 2002 are: <ul style="list-style-type: none"> <li>• Aa3 (Stable) Moody's Investors Service</li> <li>• AA- (Stable) Standard &amp; Poor's</li> <li>• A (Stable) Dominion Bond Rating Service</li> </ul>	Ratings as at March 31, 2008 are: <ul style="list-style-type: none"> <li>• Aa1 (Stable) Moody's Investors Service</li> <li>• AA (Stable) Standard &amp; Poor's</li> <li>• A (High) (Stable) Dominion Bond Rating Service</li> </ul>	Manitoba's credit profile continues to improve aided by solid fiscal results over the past few years, its prudent fiscal management and the declining net debt to GDP burden.	
Client perceived fairness and effectiveness with decisions of the Residential Tenancies Branch as measured by the rate of appeals of decisions under <i>The Residential Tenancies Act</i> .	To ensure that the branch's hearing processes and decisions continue to be fair and effective.	3,198 orders were issued under Parts 1 – 8 of <i>The Residential Tenancies Act</i> (landlord and tenant disputes) in 2005/2006 of which 568 (17.8%) were appealed. Orders were issued for 469 cases under Part 9 of the Act (rent regulation matters) in 2005/2006 of which 98 (20.9%) were appealed.	2,862 orders were issued under Parts 1 – 8 of <i>The Residential Tenancies Act</i> (landlord and tenant disputes) in 2007/2008 of which 482 (16.8%) were appealed. Orders were issued for 786 cases under Part 9 of the Act (rent regulation matters) in 2007/2008 of which 77 (9.8%) were appealed.	At just under 17%, the 2007/2008 appeal rate for Parts 1 - 8 matters is historically consistent with previous years and the appeal rate for Part 9 matters is traditionally 20%.	The branch's new computer system has changed the way statistics are gathered and reported. As a result, 2005/2006 baseline information has been restated to reflect this.

## **The Public Interest Disclosure (Whistleblower Protection) Act**

*The Public Interest Disclosure (Whistleblower Protection) Act* came into effect in April 2007. This law gives employees a clear process for disclosing concerns about significant and serious matters (wrongdoing) in the Manitoba public service, and strengthens protection from reprisal. The Act builds on protections already in place under other statutes, as well as collective bargaining rights, policies, practices and processes in the Manitoba public service.

Wrongdoing under the Act may be: contravention of federal or provincial legislation; an act or omission that endangers public safety, public health or the environment; gross mismanagement; or, knowingly directing or counselling a person to commit a wrongdoing. The Act is not intended to deal with routine operational or administrative matters.

A disclosure made by an employee in good faith, in accordance with the Act, and with a reasonable belief that wrongdoing has been or is about to be committed is considered to be a disclosure under the Act, whether or not the subject matter constitutes wrongdoing. All disclosures receive careful and thorough review to determine if action is required under the Act, and must be reported in a department's annual report in accordance with Section 18 of the Act.
