

## Memorandum

---

Date: August 11, 1993

To: Directors of Income Security

From: Gerry Schmidt/Bryan McTaggart  
Directors of Field Operations

Telephone:

---

There are occasions when social allowances recipients move solely for the purpose of pursuing an education. Previously, these costs have been considered as regular special needs.

These types of moves will not be considered as part of a recipient's educational plan and the cost of such a move as an educational cost.

In order to facilitate entering this type of move into SAMIN, a new non-continuous need code has been entered into the system.
