Dear Health Care Provider:

New! Order Health Information Resources Electronically

Manitoba Health, Healthy Living and Seniors (MHLS) is pleased to advise that orders for health information resources can now be submitted electronically to the Materials Distribution Agency (MDA).

MHLS has a large selection of health information resources available to all health care providers (HCPs) free-of-charge to keep you and your clients informed about important public health programs including, but not limited to, immunizations, West Nile Virus and Lyme disease.

Please see MHLS Health Information Resources for Health Care Professionals website (<http://www.gov.mb.ca/health/jmc/index.html>) for the new electronic order form and listing of available resources. Many of the resources are also available online, through the Government of Manitoba webpage www.gov.mb.ca.

Many of the resources are available in English and French.

In addition to electronically submitting an order, you can still email or fax the order form to MDA.

MHLS would like to encourage all HCPs to order the resources available.

Thank you for sharing this information with all relevant colleagues in your facility or clinic.

Sincerely

“Original signed by”

Richard Baydack, PhD
Director, Communicable Disease Control
