Resolution No. 4: Global Economic Disparities

WHEREAS prior to this century, living standards had never diverged so widely across different countries and regions of the world; and

WHEREAS the divide between the richest 20% of the world's population and the poorest 20% has doubled in size over the past 30 years; and

WHEREAS despite record lows of disparity in the Southern Hemisphere, Canada has reduced its foreign aid to an all-time low; and

WHEREAS the divide between the North and South has serious repercussions, as inequality and economic deprivation contribute to violence and war within and among countries; and

WHEREAS by failing to address global poverty, conflicts between the North and South over the control of important resources such as oil and strategic minerals are likely to persist; and

WHEREAS many countries in South America and Africa are in debt to international banks and often cannot repay their loans and provide basic services to their citizens simultaneously; and

WHEREAS eligibility for loans or debt relief requires the International Monetary Fund's (IMF) and the World Bank's seal of approval, which is obtained by following prescribed, uniform and strict relief packages; and

WHEREAS these programs are designed to foster foreign direct investment, whereby national applicants must liberalize their economies, cut back on social services and institute a flexible labour market, often to the detriment of their citizens; and

WHEREAS in order to attract foreign direct investment, developing states must appear attractive to multinational corporations; and

WHEREAS the Multi-National Corporations (MNC) have significant leverage and superior bargaining positions when deciding where to locate their operations and as a result they are able to exploit labour and escape environmental regulations; and

WHEREAS the yearly sales of the largest MNC dwarf the annual Gross National Products (GNP) of a vast majority of third world countries thereby raising concerns that MNC are more powerful and influential than democratically elected governments, putting shareholder interests above those of communities and even customers.

Thursday, June 16, 2005

THEREFORE BE IT RESOLVED that the Legislative Assembly of Manitoba urge the Provincial Government to encourage the Federal Government to conduct meaningful dialogue with MNC and the IMF and work to promote global responsibility; and

BE IT FURTHER RESOLVED that this Assembly direct the Clerk to forward a copy of this resolution to all Members of Parliament from Manitoba.
