RESOLUTION:

Mr. NEVAKSHONOFF – Water Quality

7. WHEREAS Lake Winnipeg, as the second largest freshwater lake in Canada and the 10th largest body of freshwater in the world, is one of Manitoba’s most valuable natural resources; and

WHEREAS excess nutrient loading from human development, such as cities, farms and golf courses, contributes to unsafe levels of ammonia, e-coli and rapid algae growth in Lake Winnipeg; and

WHEREAS a moratorium on hog industry expansion was instituted in 2008 in the over-developed areas of southeastern Manitoba, the environmentally-sensitive Red River Valley Special Management Zone and the Interlake in an effort to protect Manitoba’s water quality; and

WHEREAS funding is available to assist producers in transitioning to more environmentally friendly production to help them with the upcoming ban on winter manure spreading scheduled to come into effect in 2013; and

WHEREAS the Government of Manitoba has made significant investments in sewage upgrades in the City of Winnipeg and numerous other rural municipalities throughout the province; and

WHEREAS flooding this spring will wash additional pollutants into our waterways and have a negative effect on the health of Lake Winnipeg; and

WHEREAS we all share a responsibility to protect Manitoba’s water.

THEREFORE BE IT RESOLVED THAT the Legislative Assembly of Manitoba commend the Provincial Government for its leadership in protecting Manitoba’s water quality in the Lake Winnipeg basin.

BE IT FURTHER RESOLVED THAT the Legislative Assembly of Manitoba urge the Provincial Government to continue its aggressive efforts in improving the quality of the lake so that future generations may continue to enjoy Lake Winnipeg and all of Manitoba’s abundant fresh water resources.

DEBATE ON RESOLUTIONS:
