SITE PLAN INFORMATION;

The Mid-West Planning District Site Plan is required to be submitted with a Permit Application. It is important that the information provided is complete and accurate, this is a responsibility of the applicant.

If all required information is not provided, a Permit Application can not be reviewed and validated.

The purpose of this Site Plan is to detail the location of existing and proposed structures on site in relation to the property lines on the parcel. Also detail the separation distance from the principal building to an accessory building.

INSTRUCTIONS TO COMPLETE THE SITE PLAN:

1. Complete the front and the rear of the Site Plan document, include all information and signatures.
2. Show the location of existing structures on site.
3. Show the Location of the Proposed Structure, use a ——— dotted line to identify the new structure.
4. Show the distance from the structure being placed to the Property Lines of your parcel. Indicate if this is a corner lot.
5. Complete the lot size and setback distances in the small table on the Site Plan (front), detail your development.

Listed below is a sample of typical urban separation distances , to be used as a guide only.

Bulk requirements will vary depending on the type of development, requirements in the individual by-laws will take precedence.

URBAN: Typical

Front	Side	Corner	Rear
25	6	12	25

RURAL Typical

Front	Side	Rear
125	25	25

Est. of a dwelling or livestock operation (LO) with confinement, in the rural areas, complete the following:

If there are multiple livestock operations or dwellings that can be detailed below, detail in a separate document and submit with this application.
