

SPECIFICATION FOR REMOVING CONCRETE PAVEMENT

890. 1 SCOPE

This work shall consist of the breaking up, removing and disposing of broken fragments of plain or reinforced concrete pavement.

890. 7 DISPOSING OF BROKEN CONCRETE

The Contractor shall locate suitable areas for the disposition of broken concrete. The disposal area for the broken concrete shall meet with the approval of the Engineer.

890. 9 METHOD OF MEASUREMENT

“Removing Plain Concrete Pavement” will be measured for payment in square metres, determined from measurements made by the Engineer.

“Removing Reinforced Concrete Pavement” will be measured for payment in square metres, determined from measurements made by the Engineer.

890. 13 BASIS OF PAYMENT

Removing existing plain concrete pavement will be paid for at the unit price set forth in the Contract for “Removing Plain Concrete Pavement” and will be payment in full for performing all work necessary or incidental thereto.

Removing existing reinforced concrete pavement will be paid for at the unit price set forth in the Contract for “Removing Reinforced Concrete Pavement” and will be payment in full for performing all work necessary or incidental thereto.
