PROCESS FOR REVIEWING DEVELOPMENT APPLICATIONS
(for accesses, structures, and signs) ON DECLARED HIGHWAYS
TRANSPORTATION INFRASTRUCTURE ACT

Application Submission
Applicant submits permit application to MI.

Initial Review
MI performs an initial review, and identifies any additional information required. This step may involve correspondence between MI and the applicant.

Data Collection, Analysis, & Recommendation
- Any needed data is collected by MI, in collaboration with the applicant. Data may include location of proposed access, structure or sign; any topographical concerns; etc.
- MI gathers in-house information, conducts on-site inspection and prepares permit sketch.

Clarification
In consultation with applicant, data is refined and additional options are developed and discussed.

Reviewed
MI analyzes content and makes preliminary decision.

Approved
If approved, MI will distribute permit and close file.

Recommended Denial
If MI analysis recommends denial of permit, file is forwarded for committee review.

Committee Review
All applications not approved as requested are reviewed by Interdepartmental Review Committee. The decision may be overturned and moved to approved or upheld.

If approved

If denied

Permit Issued
Applicant receives permit.

Denial Issued
Applicant receives denial letter.
