Designator: **TFPA05**

Description: **CABLE GUARDRAIL  
INTERMEDIATE  
ANCHOR BRACKET**

**Manitoba**   
**Infrastructure and  
Transportation**

Traffic Engineering

---

The Cable Guardrail Intermediate Anchor Bracket shall be manufactured from AASHTO M270M (ASTM A709M) Grade 250 steel plate and zinc coated according to AASHTO M111 (ASTM A123). No punching, welding, drilling or cutting is permitted after the bracket is zinc coated. Corrosion resistant steel should not be placed in direct contact with concrete so only zinc coated steel should be used for this bracket.

Dimensional tolerances not shown or implied are intended to be those consistent with the proper functioning of the part, including its appearance and accepted manufacturing practices. Cable Guardrail Intermediate Anchor Bracket may be supplied in the nearest Imperial, or English, units equivalent and corresponding manufacturing specification.

Effective Date: November 23, 2005

Revised Date: January 31, 2011
