

SPECIFICATION

Roadside Safety Devices

Designator: **TPOF03**

Description: **CABLE GUARDRAIL TERMINAL
ANCHOR ASSEMBLY**

The concrete foundation assembly for the Cable Guardrail Terminal Anchor Assembly may be cast in place or precast as one piece. It may also be precast as two pieces for ease of transportation and installation. The unreinforced anchor shall be made using a concrete suitable for complete embedment in soil.

The Cable Guardrail Terminal Anchor Assembly shall include twelve TFRH20a Hooked Anchor Stud and Nut; eight used to connect the Cable Guardrail Anchor Bracket (TFPA02) and four used to connect the base plate of the Cable Guardrail Anchor Post (TPSE06). The complete Cable Guardrail Terminal Anchor Assembly shall include all parts as shown on the drawings.

Dimensional tolerances not shown or implied are intended to be those consistent with the proper functioning of the part, including its appearance and accepted manufacturing practices. Cable Guardrail Terminal Anchor Assembly may be supplied in the nearest equivalent Imperial, or English, units and corresponding manufacturing specification.

Effective Date: December 5, 2013
