GENERAL TERMS AND CONDITIONS

This Section of the Licence contains requirements intended to provide guidance to the Licencee in implementing practices to ensure that the environment is maintained in such a manner as to sustain a high quality of life, including social and economic development, recreation and leisure for present and future Manitobans.

1. In addition to any of the following specifications, limits, terms and conditions specified in this Licence, the Licencee shall, upon the request of the Director:
 - a) sample, monitor, analyze or investigate specific areas of concern regarding any segment, component or aspect of pollutant storage, containment, treatment, handling, disposal or emission systems, for such pollutants, ambient quality, and discharge or emission rates, and for such duration and at such frequencies as may be specified;
 - b) determine the environmental impact associated with the release of any pollutant from the Development; or
 - c) provide the Director, within such time as may be specified, with such reports, drawings, specifications, analytical data, descriptions of sampling and analytical procedures being used, flow rate measurements and such other information as may from time to time be requested.
2. The Licencee shall submit all information required to be provided to the Director under this Licence, in writing, in such form (including number of copies) and of such content as may be required by the Director.
3. The Licencee shall direct all wastewater generated within the Winkler Bible Camp toward the wastewater collection and disposal system or other approved sewage treatment facilities.
4. The Licencee shall ensure that the operation of the Development is carried out by individuals properly trained or qualified to do so.

SPECIFICATIONS, LIMITS, TERMS AND CONDITIONS

Respecting Construction:

5. The Licencee shall notify the assigned Environment Officer not less than two weeks prior to beginning construction of the Development. The notification shall include the intended starting date of construction and the name of the contractor responsible for the construction.

6. The Licencee shall arrange with the designated Environment Officer a mutually acceptable time and date for any required inspection between the 15th day of May and the 15th day of October of any year.
7. The Licencee shall:
 - a) prepare "as constructed drawings" for the wastewater disposal components of the Development and shall label the drawings "As Constructed"; and
 - b) provide to the Director, on or before the 1st day of January, 2005, two copies of the "as constructed drawings" of the wastewater disposal system.
8. The Licencee shall, during construction and operation of the Development, report spills of fuels or other contaminants to an Environment Officer in accordance with the requirements of *Manitoba Regulation 439/87* respecting *Environmental Accident Reporting*.

Respecting Operation:

9. The Licencee shall operate the wastewater collection and disposal system such that the wastewater load does not exceed the design capacities as follows:
 - a) the loading on the existing disposal field (Disposal Field 1) is not in excess of 18,200 litres per day; and
 - b) the loading on the new disposal field (Disposal Field 2) is not in excess of 12,500 litres per day.
10. The Licencee shall dispose of septage from the septic tanks of the Development at a facility licenced for this purpose under this Act. Septage from the Development must be disposed of in accordance with the requirements respecting timing that apply to the licenced facility.
11. The Licencee shall, in case of physical or mechanical breakdown of the wastewater collection and/or disposal system:
 - a) notify the Director immediately;
 - b) identify the repairs required to the wastewater collection and/or disposal system; and
 - c) complete the repairs in accordance with the written instructions of the Director.

MONITORING AND REPORTING SPECIFICATIONS

12. The Licencee shall:
- a) during each year maintain records of:
 - i) water usage for each well supplying water to the operation; and
 - ii) estimated wastewater flows to each of the disposal fields of the Development.
 - b) make the records being maintained pursuant to Clause 12 a) of this Licence available to an Environment Officer upon request; and
 - c) keep the maintained records of any one calendar year available for inspection for a period of three years following the respective calendar year in which they were recorded.

REVIEW AND REVOCATION

- A. Environment Act Licence No. 1194 is hereby rescinded.
- B. If, in the opinion of the Director, the Licencee has exceeded or is exceeding or has or is failing to meet the specifications, limits, terms, or conditions set out in this Licence, the Director may, temporarily or permanently, revoke this Licence.
- C. If the Licencee has not commenced construction of the Development within three years of the date of this Licence, the Licence is revoked.
- D. If, in the opinion of the Director, new evidence warrants a change in the specifications, limits, terms or conditions of this Licence, the Director may require the filing of a new proposal pursuant to Section 11 of The Environment Act.
