Manitoba
Environment

Licence No. 1487

Issue Date JULY 10, 1991

In accordance with the Manitoba Environment Act (C.C.S.M. c. E125)

THIS LICENCE IS ISSUED TO:

SKYLINE AUTO (72958 MB, LTD.)

The following limits, terms, and conditions shall be complied with in connection with the construction and operation of an auto wrecking facility located at NW 3-3-3 in the Rural Municipality of Rhineland.

1. The Applicant shall collect all drained fluids (battery acid, gasoline, anti-freeze, crankcase, differential, brake and power steering fluids), and safely store the fluids in water tight and covered containers prior to re-use or final disposal.
2. The Applicant shall ensure that each container in which fluids are stored is clearly marked on the side and on the top surface identifying the type of fluid therein.
3. The Applicant shall ensure that the periodic disposal of collected fluids occurs by delivery to a facility that is equipped to safely recycle or destroy such liquids. The Applicant shall ensure that only a licenced hazardous waste hauler transport these liquids.
4. The Applicant shall maintain a record of such disposal required by Clause 3, recording the date, quantity, and type of liquid removed for recycling or disposal and the location of such disposal.
5. The Applicant shall ensure that no open burning takes place on the site.

6. The Applicant shall ensure access to vehicles by placing them in such a manner that an open space exists on all four sides of each vehicle and that vehicles be placed in such a manner that allows access to all areas of the vehicle storage compound by mobile fire fighting equipment.
7. The Applicant shall ensure that a secure mesh fence, eight feet in height is constructed around the perimeter of the property on which wrecked vehicles and vehicles used for parts are placed and/or stored and that all fencing is kept in good repair.
8. The Applicant shall ensure that there is no stacking of vehicles.
9. The Applicant shall ensure that there is no stacking of parts associated with the operation above the height of the fence prescribed in Clause 7.
10. The Applicant shall ensure that the vehicle and parts storage area is properly maintained such that;
 - (a) vegetation is controlled so that the height of said vegetation does not exceed 15 centimeters from the ground surface;
 - (b) vehicles, parts, and other materials are stored in such a manner that the site can readily be maintained pursuant to Clause 10(a) and Clause 6.
11. The applicant shall ensure that all water used to wash vehicles and parts be collected on a concrete slab and be drained to a collection area that will effectively separate oils, greases, solvents from the water prior to disposal.
12. All waste oil shall be disposed of in a manner acceptable to the Director.

13. The Applicant shall ensure that all recyclable waste is removed to an approved source. All non-recyclable waste shall be deposited at a registered Waste Disposal Ground.
