AN ORDER OF THE CLEAN ENVIRONMENT COMMISSION

UNDER THE CLEAN ENVIRONMENT ACT

Re: The Clean Environment Commission and Mid-West By-Products Company, applicant.

WHEREAS pursuant to the provisions of The Clean Environment Act, Mid-West By-Products Company, a Division of Gordon Young Limited, 607 Dawson Road, St. Boniface, City of Winnipeg, has submitted an application to the Clean Environment Commission requesting the Commission to prescribe limits in connection with the operation of an inedible rendering plant located on Lot 293, Roman Catholic Mission property, Plan 433 including all of plans 4973 and 7482 at or near 607 Laurendeau Street in the City of Winnipeg.

IT IS HEREBY ORDERED THAT

- 1) The applicant shall within eighteen months of the date of issuance of this Order install and set in operation equipment and facilities to effectively reduce odour emanating from inedible rendering cookers, the dead stock cutting room and the bin conveyor pre-breaking equipment,
- 2) The applicant shall ensure that
 - a) gases and vapours discharged from inedible rendering cookers to the atmosphere contain less than one hundred and fifty (150) odour units per standard cubic foot and that said gases and vapours are not diluted before measurement except as required to introduce combustion gases or chemical reactants necessary for odour abatement, or
 - ii. to assure gathering of said gases and vapours,
 - b) sampling points are provided in the exhaust system from the inedible rendering cookers in conformity with the requirements of the Environmental Protection Branch of the Department of Mines, Resources and Environmental Management,
- 3) The applicant shall ensure that at any point of impingement off the plant premises the atmosphere shall contain less than seven (7) odour units per standard cubic foot, emanating from said operation,
- 4) The applicant shall within six months of the date of issuance of this Order file with the Clean Environment Commission a schedule of design, procurement, installation and setting in operation of equipment and facilities to meet the requirements of clauses 1), 2) and 3) of this Order.

ENVIRONMENTAL PROTECTION

- 5) The applicant shall ensure that:
 - a. all odour control and reduction equipment and facilities are maintained in sound operating condition and,
 - b. all odour control and reduction equipment and facilities are in operation whenever or however said plant is in operation,
- 6) The applicant shall ensure that general housekeeping and maintenance measures are of a standard that will be compatible with meeting the requirements of clause 3) of this Order.

Order No. 239

Dated at the City of Winnipeg,
