

AN ORDER OF THE CLEAN ENVIRONMENT COMMISSION
UNDER THE CLEAN ENVIRONMENT ACT

305 m.j.

Re: The Clean Environment Commission and Evergreen Peat & Fertilizer Ltd.,
applicant,

WHEREAS pursuant to the provisions of The Clean Environment Act, Evergreen Peat and Fertilizer Ltd., has submitted an application to the Clean Environment Commission to prescribe limits in connection with an operation involving the removal, drying and bagging of peat moss from a peat bog; the site or the said operation being all or parts of Sections 3, 4, 5, 9 and 10, Township 13, Range 10 EPM in the Rural Municipality of Lac du Bonnet,

AND WHEREAS the drying and bagging process of the said operation is carried on in a plant located on premises on part of the SE quarter of Section 4, Township 13, Range 10 East of the Principal Meridian,

AND WHEREAS no representation was made to the Clean Environment Commission by a person who is or is likely to be affected by an Order of the Commission prescribing limits in connection with the said operation,

AND WHEREAS the Clean Environment Commission considered the application on the 13th day of August, 1973,

IT IS HEREBY ORDERED THAT

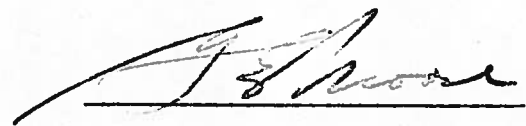

1. The applicant shall ensure that particulate emissions emitted from the said plant do not exceed 0.57 grams per standard cubic meter of air calculated at 20° Centigrade and 760 millimeters of mercury (0.25 grains per standard cubic foot of air calculated at 68° Fahrenheit and 30 inches of mercury), at the point of emission,
2. The applicant shall ensure that sulphur compounds emitted from the said plant do not exceed 0.2 of one percentum by volume of the gases present calculated at a temperature of 20° Centigrade and 760 millimeters of mercury, at the point of emission,
3. The applicant shall ensure that at any point of impingement off the said plant premises:
 - (1) the dustfall over a period of thirty days does not exceed 1.5 milligrams per square centimeter over and above the natural background level, and
 - (2) the suspended particulate concentration over a period of twenty-four hours does not exceed 100 micrograms per cubic meter,

*Assigned to
Eng. Dept.
Sept. 14/73*

4. The applicant shall within six months of the date of issuance of this Order file with the Clean Environment Commission a submission:
 - (1) including a program for the environmental rehabilitation of any property affected by the said operation and its ancillary processes, and
 - (2) indicating what steps will be taken during the tenure of the said operation and the action to be taken on termination of the said operation for the environmental rehabilitation of the properties affected, and,
 - (3) projecting one or more alternative uses to which the land affected could be put on completion of the rehabilitation program both in the intermediate stage and at the termination of the said operation,
: for the consideration and approval of the Commission,
5. The applicant shall upon completion of the operation undertake the program of environmental rehabilitation, that has been submitted to, and approved by the Clean Environment Commission.

Order No. 305

Dated at the City of Winnipeg
this 7th day of September 1973

Chairman,
Clean Environment Commission
