AN ORDER OF THE CLEAN ENVIRONMENT COMMISSION

UNDER THE CLEAN ENVIRONMENT ACT

Re: The Clean Environment Commission and Winnipeg Speedway Ltd., applicant,

WHEREAS pursuant to the provisions of The Clean Environment Act, Mr. Peter Vernaus of 401 Pritchard Avenue, Winnipeg has submitted an application on behalf of Winnipeg Speedway Ltd., to The Clean Environment Commission to prescribe limits in connection with the operation of a 3/8 mile dirt oval track for automobile racing and snowmobile racing with ancillary facilities including grandstands, washrooms, concessions, fencing and customer parking all located in part of the north half of River Lot 21 North in the Rural Municipality of Ritchot in the Province of Manitoba,

AND WHEREAS representations were made to The Clean Environment Commission by persons who are or are likely to be affected by an Order of the Commission prescribing limits in connection with the said operation,

AND WHEREAS The Clean Environment Commission held a public hearing on the 4th day of February, 1974 in the Board Room, Building 2 of the Fort Osborne Complex at 139 Tuxedo Avenue, Winnipeg, Manitoba,

AND WHEREAS the applicant subsequently applied for the prescribing of limits with respect to the addition of motorcycle racing to the aforementioned automobile and snowmobile racing in connection with the said operation,

AND WHEREAS the additional application was duly advertised and no representations were received by the Commission,

AND WHEREAS The Clean Environment Commission considered the original application and the subsequent application on the 14th day of May, 1974 in the context that the said operation would include automobile, snowmobile and motorcycle racing,

IT IS HEREBY ORDERED THAT

1. The applicant shall ensure that the said operation including practice periods, warm-up sessions and actual racing shall be:
 - (a) limited to a maximum of three days in any one week,
 - (b) conducted only between the hours of 9:00 a.m. and 11:00 p.m.,
 - (c) limited to a maximum of four hours on any day of operation,
2. The applicant shall ensure that at no time the sound level arising from the said operation exceeds the following limits at any point off the site of the said operation,

*Assigned to Air Limitation July 4/74
dBm/per mit.*

*

C-b-703

2. continued

<u>Percentage of time (per hour period)</u>	<u>Sound level limit</u>
2 % (ie. 1.2 minutes per hour)	80 dBA
10% (ie. 6 minutes per hour)	75 dBA
50% (ie. 30 minutes per hour)	73 dBA
90% (ie. 54 minutes per hour)	70 dBA

3. The applicant shall ensure that adequate dust control techniques are employed at the site of the said operation and associated traffic surfaces so that visibility is not impaired on Provincial Trunk Highway 75 or on Cartier Road,
4. The applicant shall ensure that odours arising from the said operation (as measured at any point off the site of the said operation) do not exceed an intensity of seven dilutions to threshold on each of two sampling occasions taken at least fifteen minutes apart but both within a period of one hour,
5. The applicant shall ensure that all litter, garbage and refuse is prevented from blowing off the premises by collecting it after each event, storing in covered and enclosed containers and removing it to a waste disposal ground,
6. The applicant shall ensure that there is no open burning of litter, garbage or refuse on the site of the said operation,
7. The applicant shall ensure that:
 - (a) all liquid wastes including sewage and sewage effluent are collected and stored in water tight covered tanks pending removal from the site of the said operation,
 - (b) all liquid waste including sewage and sewage effluent are removed from the site of the said operation and disposed of at a municipal disposal point with the approval of the concerned municipality,
8. The applicant shall ensure that waste oil arising from the said operation is:
 - (a) either collected and stored in separate liquid-tight covered tanks or containers pending removal from the site of the said operation in accordance with the terms of clause (7) above, or

**

8. continued

- (b) used for dust control on the track or on roadways or parking areas on the site of the said operation or on roadways lawfully under the maintenance control of the applicant,

Order No. 368

Dated at the City of Winnipeg
this 20th day of June 1974

Chairman,
Clean Environment Commission

- * Sound levels (dBA) shall be measured using the A-weighting network, slow meter response of a sound level meter which meets International Electrotechnical Commission Recommendations No. 179 (I.E.C. No. 179) or American National Standards Institute (A.N.S.I.) No. S1.4-1971 for type 1 (Precision) sound level meters.
- ** Odour as measured with a Scentometer by the Environmental Management Division of the Department of Mines, Resources and Environmental Management or by another agency authorized by the Minister for this purpose.
