Dear Mr. Pinette:

**Re: 3M Canada – Notice of Alteration - Licence No. 964 R**

Thank you for the Notice of Alteration submitted on December 13, 2018 and additional information provided on December 21, 2018. The alteration request is for an approval to install a dedicated 1,750 SCFM dust collection system for the minor formulation ingredient batch making process at the 3M Canada Morden manufacturing facility. The installation will increase the efficiency of the process by streamlining the exhaust system.

Upon review of your alteration request, I have concluded that the environmental effects of the proposed alteration will be insignificant, and, therefore, in accordance with Section 14(2) of The Environment Act you are hereby authorized to carry out the proposed alteration as described in the December 13, 2018 Notice of Alteration.

If you have any questions regarding this matter, please contact Mr. Tyler Kneeshaw, Regional Supervisor at 204-239-3608.

Yours truly,

Tracey Braun, M.Sc.
