Mr. Colin Welch  
Canexus Limited  
8080 Richmond Ave. East  
Brandon, MB R7A 6A6

Dear Mr. Welch:

**Re: Canexus Chemicals Canada Limited Partnership – Brandon Sodium Chlorate Plant –  
Licence No. 2619 RRR – Notice of Alteration**

Receipt of the April 10, 2015 letter from Dillon Consulting on behalf of Canexus Limited is acknowledged as a notice of alteration in accordance with section 14 of *The Environment Act*.

The requested change to the development as Licensed is to increase the maximum allowable sodium chlorate production rate from 310,000 metric tonnes per year to 325,000 metric tonnes per year. Additionally, a revision to Clause 12 of the Licence to reflect the facility's automated calibration system is also requested.

The potential environmental effect of the requested change to the Development as Licensed is insignificant and considered to be a minor alteration in accordance with section 14(2) of *The Environment Act*. The request for the maximum allowable production rate increase as described in the April 10, 2015 submission is hereby approved. The increased allowable production limit and the revision to Clause 12 are reflected in the attached revised Environment Act Licence No. 2619 RRRR.

If you have any questions, please contact Jennifer Winsor, P.Eng. at 204-945-7012.

Yours sincerely,
