Ms. Tracey Braun
Director, Environmental Assessment and Licensing Branch
Manitoba Conservation
123 Main Street, Suite 160
Winnipeg, Manitoba
R3C 1A5

Dear Ms. Braun:

Re: Request to extend current terms and conditions of Manitoba Environment Act Licence 2191E to December 31, 2009

Thank you for your letter dated December 12, 2007, in which you provided an extension to the terms and conditions of Manitoba Environment Act Licence 2191E to December 31, 2008. This extension was necessary to allow Manitoba Conservation Forestry Branch to continue its review of LP's 20-year Forest Management Plan (FMP).

I am pleased to report that, over the past year, the cooperative efforts between Manitoba Conservation and LP to assess the management objectives and resolve the wood supply analysis issues as described in our October 29, 2007, extension request have been productive. That being said, the process is not yet complete and therefore an additional extension is required to see the analysis through to completion, as well as to conduct subsequent consultations on the final plan prior to submittal to the EALB. Therefore, **please accept this letter as LP's formal request to extend the current terms and conditions of Manitoba Environment Act Licence 2191E to December 31, 2009.** If, towards the end of 2009, it is recognized that the FMP review process is still ongoing, or that additional time is required for EALB review and approval, LP may request an additional extension to the licence at that time.

Please do not hesitate to contact me at 204-734-7710 if you have any questions or require any additional information with respect to this matter.
