Mr. Glen J. Weisbrod, P.Eng.
Regional Manager - Environmental Services
GFL Environmental Inc.
P.O. Box 25055
Saskatoon, SK S7K 8B7

Dear Mr. Weisbrod:

**Re: Notice of Alteration – Dangerous Goods Handling and Transportation Act
Licence 69 HW RR – Shale Bin for Rinsing Vacuum Trucks (Term)**

Thank you for your May 9, 2017 Request for Amendment to Dangerous Goods Handling and Transportation Act Licence No. 69 HW RR for the GFL Environmental Inc. (formerly Enviro West Inc.) hazardous waste collection facility. The alteration is a request to install a shale bin with a constructed containment area in order to collect the rinse water and material from vacuum trucks.

Upon review of your amendment request, I have concluded that the environmental effects of the proposed amendment will be insignificant, and, therefore, you are hereby authorized to carry out the proposed amendment, being the construction of a containment area and placement of a shale bin as described in the May 9, 2017 submission; pursuant to the following conditions:

1. the constructed containment area shall be sized to contain 110% of the volume of the shale bin (liquid capacity);
2. the secondary containment impermeable barrier shall be 60 mil HDPE, at minimum,
3. notification to the Environment Officer once the shale bin and containment is installed, prior to utilization; and
4. authorization for this alteration will expire on December 31, 2017.

If you have any questions regarding this matter, please contact Ms. Cory Switzer, Environmental Engineer at 204-250-7645.

Yours sincerely,

Tracey Braun, M.Sc.
Director
