Email: mark@ecb.ca

Dear Mr. Myrowich:

Re: ErosionControlBlanket.Com Inc – Notice of Alteration

Thank you for the revised Notice of Alteration dated August 6, 2015 submitted by Asmundsson Engineering on your behalf. The submission describes your intention to increase the stenlog production capacity at your Riverton Erosion Control Blanket manufacturing facility. It is understood that increasing the capacity of stenlog manufacturing will divert and utilize up to 100% of the waste straw produced during the production of erosion control blanket.

Upon review of your alteration request, I have concluded that the environmental effects of the NoA will be insignificant, and, therefore, in accordance with Section 14(2) of *The Environment Act* you are hereby authorized to carry out the proposed alteration as described in the August 6, 2015 NoA. This approval is conditional on a maximum stenlog production capacity of 1400 lb/hr which is the maximum waste straw generated at a full production capacity of the erosion control blanket.

If you have any question regarding this matter, please contact Eshetu Beshada at (204) 945-7023 or Eshetu.Beshada@gov.mb.ca.

Yours sincerely,
