Jeff.Fountain@vale.com

August 27, 2021

Laura Byles, Acting Director  
Environmental Approvals Branch  
Manitoba Conservation and Climate  
1007 Century St.  
Winnipeg, Manitoba R3H 0W4

Dear Ms. Byles,

**Re: Notice of Alteration to Environment Act Licence 960VC – File No. 557.10**

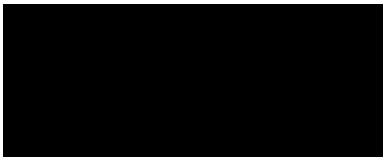

Vale Manitoba Operations – Incorporating Ground Water Monitoring and Hazardous Waste Operations

On July 1, 2020, Vale Waste Management Facility Operating Permits No.'s 5-055 R4 and 35818 expired due to regulatory changes making operating permits no longer being available for entities other than municipalities. In discussing this matter with Mr. Edwin Yazon (EAB) it was communicated that Vale could incorporate these two facilities into the existing Environment Act Licence for the Thompson Operations (960VC). Please accept this Notice of Alteration to EAL 960 VC to consider the items listed below.

Vale wishes to continue to operate its hazardous waste collection and storage facility in order to properly collect and store any and all hazardous waste generated on-site. Managing and contain any hazardous materials is vital to Thompsons environmental mandate and prudent to keeping up with regulatory requirements. There is also the need for clarification regarding landfill groundwater monitoring as per section 26(1) of the *Waste Management Facility Regulation, M.R. 37/2016*.

Please accept the Notice of Alteration form as a formal request for review (enclosed). If you have any questions or need further information, please contact Jeff Fountain – Environmental Superintendent at 204-778-2649.

Respectfully,

Jeff Fountain  
Superintendent – Environment  
Vale Manitoba Operations

- c. J. Windsor (EAB)
- E. Yazon (EAB)
- A. Dey (EAB)
