Mr. R. Matthews, P. Geo.  
Manager, Water Power Act Licensing  
Manitoba Conservation and Climate  
1007 Century Street  
Winnipeg, MB R3M 0W4

Dear Mr. Matthews:

**LAURIE RIVER #1 GENERATING STATION – SHORT TERM EXTENSION LICENCE**

We request renewal of the Short Term Extension Licence (STEL) for the Laurie River #1 Generating Station under the provisions of Section 92(6) of Water Power Regulation 25/88R. We request that the STEL be renewed for an additional five year term. The Second STEL was issued for a five year term on August 26, 2015.

Manitoba Hydro intends to submit the technical requirements for completing the Renewal Licence for Laurie River #1 to Manitoba Conservation and Climate within the term of the next STEL.

Manitoba Hydro continues to operate the Laurie River #1 Generating Station in compliance with the Second STEL. The supporting documentation provided in 2010 prior to issuance of the STELs is still valid and ongoing compliance with the licence is documented in our Annual Water Levels and Flows Compliance Report.

If you have any questions about this matter, please call me at (204) 360-3018.

Yours truly,
